The tornadoes of Greensburg & Chapman, Kansas, wiped out entire communities. Whether it's rebuilding with a strong historical influence, or a totally new design, we have the talent, experience and expertise to handle your construction project with care, as we did with these two nationally recognized disaster sites.

Specialized Construction Services for Disaster Reconstruction

When disaster strikes, you need quick response. If re-constructing buildings damaged or destroyed is in order, we're here to help. We've been helping provide solutions to this problem across the Midwest since 1984. Our construction services and construction management processes assure our customers of a job well done.

Our business is built on a tradition of excellence as a result of personal accountability, state-of-the-art value engineering processes, and a commitment to quality that is second to none. An example of this commitment is the fact that one of our top management team members is personally responsible as the Project Manager on each of our construction projects.

Whether you need re-construction for a damaged building or an entirely new facility, we have the integrity, experience and commitment to do the job right.
